

I would like to comment on the above proceeding. I DO NOT want my name/number to be used at others descretion. Participation in the do not call list was by my own prerogative. I believe that I have the right to not be called by solicitors and that is not something that I should have to pay for. Banks have access to unlisted numbers and that means that even if I unlisted. I would not do business with a bank that participates in this action, but that may be out of my control. Due to the fact that so many banks merge and so many loans are sold to other lenders, I would become a pawn.

Please do not consider approving this action. I would like to continue enjoying my dinner time with my children!
